

ABOUT OUR TABLES

Our table line includes a wide variety of standard materials, shapes, sizes, and edge treatments. We offer both indoor and outdoor commercial tables. Most of our tables are built for commercial indoor use only. For table sizes, shapes, and materials not listed in this Price List, please contact customer service. Our table tops and bases are sold as one unit. While tops and bases can be purchased separately, to ensure the best quality product and fit, we suggest specifying complete tables. Most cast iron bases are shipped separately from the table tops.

WOOD TOPS

We use Maple, Ash, Cherry, Red Oak, and Walnut, for our solid wood tops. For each solid wood table, we sand and stain very square inch by hand. We then enhance the grain with expertly applied finishes that ensure long-lasting beauty. Solid wood tables are finished with a water-based acrylic topcoat for superior durability. All wood products are available in any of our standard wood stains, or we can custom color match. Because wood is a natural material, color may vary slightly from one piece to another, but every effort is made in the factory to match pieces consistently. Standard thickness for wood tables is 1.5".

QUARTZ + STONE TOPS

All prices are for a minimum of 5 tables. For quantities less than this, please contact Sales@studiowisedesign.com All tops have an eased edge and are drilled for fastening with our bases. Quartz is not available on all bases lines. Standard thickness is 3cm. Granite, marble and dekton ceramic available upon request.

SOLID SURFACE TOPS

Solid surface tops are available upon request and available on all base lines. Some sizes and finishes are not available at standard price. Please contact sales@studiowisedesign.com for pricing. Standard thickness is 1.5"

WOOD POWDERCOAT TOPS

All prices are for a minimum of 5 tables. For quantities less than this, please contact Sales@studiowisedesign.com All tops are rated for interior and exterior use. Custom color available upon request. Standard thickness is 1"

LAMINATE TOPS

We use BIFMA-strength approved, industrial-grade, low-formaldehyde particle board for the cores of our laminate table tops. Standard face for laminate top is .05" with a phenolic resin backer for balanced construction. Tops can also be specified in most major manufacturers collection, or certain high-performance grades for chemical resistant surfaces, fire-rated surfaces, and exceptional high-wear surfaces. Pricing for laminate tops is based on the Formica Basics Collection,

WOOD SLAT TOPS

All wood slat tops are interior and exterior rated and made from rot resistant wood which has natural oils to hold up to exterior application. All tops come standard with an oiled finish, which weathers to a silver grey tone. Natural color can be maintained with annual oiling or we can apply exterior grade urethane for an additional charge. Top thickness is 1"

BASES

All of our table bases are made of either high-strength, structural steel or heavy-duty cast iron. Columns on both are heavy-wall tubes made of 14-gauge steel. All frames are hard welded using state-of-the-art machinery and a deep-penetration welding process that maximizes strength. Bases are cleaned and primed before paint is applied via an automotive-grade powder coat system that assures even and thorough coverage. The environmentally friendly epoxy/polyester finish is baked in to create a beautiful, durable, color-rich surface.
