OUR FUSE PREMIUM BIRCH BUTCHER BLOCK SURFACES BRING WARMTH AND LASTING BEAUTY TO ANY PROJECT. WE START WITH SELECT GRADE HARDWOOD FOR A PREMIUM APPEARANCE AND STABILITY, THEN OUR ARTISANS ENHANCE THE NATURAL GRAINS WITH WASHES OF COLOR. TO TOP IT ALL OFF, WE APPLY 3 COATS OF HOSPITALITY GRADE FINISH TO ENSURE YOUR SURFACE LOOKS BEAUTIFUL FOR YEARS TO COME.

FUSE

SUSTAINABILITY

We all can take part in our responsibility to change and we believe, change happens when we all agree that the small acts we make toward our future are worth the investment. We believe that creating highly crafted timeless products that last is the most responsible approach. That's why we pay attention to the details and consideration of material yield, waste, and reclamation throughout our manufacturing and packaging.

To ensure our employees and consumers are safe now, and in the future, we are committed to sourcing materials that are free from toxins that will affect our health and environment.

FUSE

CLEANING AND SANITIZATION

We all have a responsibility to care for and protect the beauty of our world as well as our health and wellness. When selecting a cleaner, making the right choice for your business and protecting the health and safety of the community is more important than ever.

With the onset of Covid-19 many new cleaning products entered the commercial market that were hazardous to our health and corrosive to your furniture and equipment.

In effort to protect the health and safety our clients, and the environment we've provided our recommended cleaning guidelines that are safe for you, our surfaces, and our planet.

HOW TO CLEAN FUSE TABLES

DAILY CLEANING:
As needed, wipe down with a damp cloth and dry the surface thoroughly afterward. Don't let the moisture sit on the wood for too long, as it can cause swelling and warping.

STUBBORN SPOTS:
You can use a mixture of mild soap and water. Apply the solution with a soft cloth and wipe off any excess moisture immediately.

NEVER USE the following types of cleaning agents:
High-acid cleaners such as mold remover, tub & tile cleaner, rust & hard water stain removers, etc.
Abrasive cleaners.
Steel wool, SOS, Brillo, pressure washers, etc.
Magic Erasers or equivalent melamine sponges.
Powdered oxalic acid.
Alkaline cleaners such as bleach, ammonia, oven cleaner, etc.
Quaternary cleaners (quaternary ammonium compounds).
Oil soaps.

Use of non recommended cleaners will void the warranty.

CLEANING AND SANITIZATION

We all have a responsibility to care for and protect the beauty of our world as well as our health and wellness. When selecting a cleaner, making the right choice for your business and protecting the health and safety of the community is more important than ever.

With the onset of Covid-19 many new cleaning products entered the commercial market that were hazardous to our health and corrosive to your furniture and equipment.

In an effort to protect the health and safety of our clients, and the environment we've provided our recommended cleaning guidelines that are safe for you, our surfaces, and our planet.

HOW TO CLEAN QUARTZ TABLES

DAILY CLEANING:
As needed, wipe down with a damp cloth and dry completely to avoid water spots.

STUBBORN SPOTS:
Use a soft cloth and a non-abrasive cleaner. Apply cleaner to the cloth, not directly onto the quartz, and wipe the surface. Repeat until the spot is removed and thoroughly rinse the surface and wipe dry to prevent water spots.

GREASE SPOTS:
Wipe grease spots with isopropyl (rubbing) alcohol and wipe the spot. Repeat as needed until clean. Always follow with cleaning using a mild non-abrasive cleaner as outlined above, then thoroughly rinse with cool water and dry with a soft cloth.

NEVER USE the following types of cleaning agents:
High-acid cleaners such as mold remover, tub & tile cleaner, rust & hard water stain removers, etc.
Abrasive cleaners.
Steel wool, SOS, Brillo, pressure washers, etc.
Magic Erasers or equivalent melamine sponges.
Powdered oxalic acid.
Alkaline cleaners such as bleach, ammonia, oven cleaner, etc.
Quaternary cleaners (quaternary ammonium compounds).
Oil soaps.

CLEANING AND SANITIZATION

We all have a responsibility to care for and protect the beauty of our world as well as our health and wellness. When selecting a cleaner, making the right choice for your business and protecting the health and safety of the community is more important than ever.

With the onset of Covid-19 many new cleaning products entered the commercial market that were hazardous to our health and corrosive to your furniture and equipment.

In an effort to protect the health and safety of our clients, and the environment we've provided our recommended cleaning guidelines that are safe for you, our surfaces, and our planet.

HOW TO CLEAN SLAT TABLES

DAILY CLEANING:
Caring for outdoor oil-rubbed teak furniture requires regular cleaning with mild dish soap and water. Use a damp cloth with clean water to gently wipe the surface in the direction of the wood grain. Remove any standing water with a dry cloth to prevent water spots or moisture trapping.

STUBBORN SPOTS:
Use a soft cloth and a mild dish soap with warm water. Apply to the cloth, not directly onto the teak, and wipe the surface. Repeat until the spot is removed and thoroughly rinse the surface and wipe dry to prevent water spots.

OUTDOOR WOOD MAINTENANCE:
Teak wood contains natural oils that make it strong and durable outdoors. Over time, exposure to sun and rain causes the surface to turn a silver-gray color. If you prefer the original golden look, re-oiling the wood once or twice a year (depending on the environment) is recommended.

NEVER USE the following types of cleaning agents:
High-acid cleaners such as mold remover, tub & tile cleaner, rust & hard water stain removers, etc.
Abrasive cleaners.
Steel wool, SOS, Brillo, pressure washers, etc.
Magic Erasers or equivalent melamine sponges.
Powdered oxalic acid.
Alkaline cleaners such as bleach, ammonia, oven cleaner, etc.
Quaternary cleaners (quaternary ammonium compounds).
Oil soaps.

Use of non recommended cleaners will void the warranty.
